SECRETARY KANSAS ACADEMY OF SCIENCE,  
Topeka, Kan., U. S. A.

## ANNOUNCEMENTS.

One of the duties of the Secretary is the compilation of a directory of persons interested in science work, the teachers of science in our public schools and others, in the state. Members of the Academy can greatly assist in this work by sending in to the office as many of these names as possible.

In accordance with the resolution passed at the last session of the Academy, members will please send in their photographs to the office.

Papers presented at the Academy meetings, particularly those intended for publication in the Transactions, should be typewritten carefully before being filed for publication. The printer declines to send proof-sheets all over the country because of the delay and extra expense; therefore, the proof-reading devolves on the Secretary, and correct typewritten copy is far more important to the author than to either the Secretary or the printer. It will facilitate the work of publication and avoid irritating errors that are sure to occur when manuscript copy is used. Typewrite your papers and then read them over carefully. One or two errors discovered in a printed scientific article or book frequently cast a doubt in the mind of the reader over the entire article or work.

The next meeting of the Academy will be held near the close of the year 1903, at Manhattan.

A handwritten signature in cursive script, appearing to read "G.P. Grimsley".

TOPEKA, KAN., May, 1903.

*Secretary.*
